Mel Gibson's Wife Files for Divorce

Mel Gibson's 28-year marriage is over. His wife Robyn filed for divorce right before the Easter holiday.

The Gibson divorce could be one of Hollywood's most expensive divorces ever. Gibson is reportedly worth at least \$900 million and Robyn could be entitled to half of that!

"They did it together and that's the way California law looks at it, [they split it] right down the middle," says attorney Stacy Phillips.

Robyn cites "irreconcilable differences" as the reason for the divorce. She's asking for "joint physical and legal custody" of their son Thomas, who turns ten-years-old on April 14th. Their other six children are adults. Robyn is represented by Hollywood superlawyer Laura Wasser, who has represented **Britney Spears**.

Gibson raised eyebrows last month when he was spotted with another woman on a beach in Costa Rica.

In a statement, Gibson told INSIDE EDITION: "*Throughout our marriage and separation we have always strived to maintain the privacy and integrity of our family and will continue to do so.*"
